

Areas of work

Learning disability and Autism

Cwm Taff Morgannwg needs to be a good place for people to live and work. We want to make sure people get their voices heard. To have more control over their lives.

Physical disability and sensory impairments

We want to make sure that people feel part of their local community.

We need to take away the barriers and make services and support accessible.

Mental Health

This can affect your relationships, your work life, education and your health. We need to work together to have better support and services.

Together for Mental Health (T4MH) is the plan for Wales.

Unpaid Carers

An unpaid carer is someone who is caring for an adult or disabled child and is not getting paid.

It is a difficult thing to do and they need to have a voice and know where to get information and advice.

Children and Young People

We want all children and young people to have a healthy and happy life.

We need to find ways to work with any issues and to get the views of children and young people.

Older People

Older people like to be independent and live in their own homes.

It is important that they get the right information, advice and services. There are services for older people across Cwm Taf Morgannwg

Dementia

People with dementia can live an independent life.

It can be difficult and some people feel lonely and isolated

Organisations are working across Cwm Taf Morgannwg to make things better and to give people with dementia the right support, information and services.
